Statistical reports of fishery operations.

George T. Myers and Co.,
464 Colman Building,
Seattle, Washington.

Gentlemen:

There is inclosed herewith a circular notice of recent date with reference to the accuracy of the information to be furnished on the statistical reports required of all fishery operators in Alaska.

In this connection your attention is called to the fact that on the report submitted by you for your Chatham cannery this past season the localities in which salmon were taken were grouped. The location and catch of each trap should have been shown separately.

It will be of the greatest assistance to this Bureau and render its statistics of greater value to the industry if all operators will cooperate in this work. Your attention to this matter will be appreciated.

Very truly yours,

Lewis Radcliffe.

Acting Commissioner.

Inclosure.
